NOTES

WE PROVIDE OUR OWN PRE-AMPS and will not need house DI boxes. Only lines.

We request 4 separate monitor mixes

Power drops are needed at each pedal board (not necessarily individual ones, but one must be reachable for every pedal board)

MIX NOTES for FOH:

1. All vocals should should have a small amount of extra reverb; for certain songs we will need more reverb on the vocals, but this will be noted on the setlist
2. Every band member sings lead vocals; setlist with the lead singer of each songs can be handed out
